

THE INME CAMP PANCHGANI 2018

DAY 1

THE INME ORG. PROGRAMME

Inme is founded by alumni of XLRI and INSEAD who are pioneers in organizing outdoor education in India. They are practicing professionals, entrepreneurs, business leaders, educationists, authors, facilitators, and behavioral science professionals. Their diversity coupled with their passion created a unique programme. They organize camps across locations in India during summer and winter vacations for children in the age group of 9

to 17 years and work with leading schools throughout the year.

This kind of outbound programme complement classroom education with learning delivered through high energy adventure experiences. The aim of the camp is to encourage young children to explore the world of outdoor sports and find activities they like best.

ACTIVITIES

DISCOVER PROGRAMMES

We understand the apprehension of the parent of a young child stepping out of the sheltered environment to participate in an outdoor sport for the very first time. The Discover Programme are especially designed for children aged 9 to 11, who are taking their first stride of self-reliance.

Each morning, children attempt one of the four activities offered on camp - Rock Climbing, Wilderness Craft, Ropes Course and Backpacking - learning basic skills and techniques of the sport. The aim of the summer camp is to encourage young children to explore the world of outdoor sports and find activities they like the best.

EXPLORE PROGRAMMES

The five day long camp focuses not only on Life Ready skills such self-efficacy and team work but also on building technical skills in chosen activities. The learning objectives of a specific programme are decided based on the age group for which the programme is designed. Rigorous outdoor activities are conducted in the cool of the mornings and post lunch time is reserved for campus activities that focus on building. Challenges and tasks allow participants to explore their attitude in interpersonal situations like group problem- solving, planning, coordination, crisis management and goal setting. Sessions also work at sensitizing them towards environment and surroundings. Informal activities and music allow them to shun their inhibitions.

“This is a place for rejuvenating ourselves. Through all activities we get to know about various skills like teamwork coordination etc. Food and dorms are also really nice. I'm really excited to spend the coming days here.” **Aditi Panda XI-C**

Anyone can be a leader and the world definitely needs lots more good leaders! What is leadership? It is all around you and shows up in many ways.

Leadership is...

- Doing the right thing without being asked or when no one is watching
- Helping others in need
- Guiding others on the right path
- Setting a good examples for others and being a good role model
